Greetings,

On behalf of our entire team at the Cystic Fibrosis Foundation, thank you for joining us at the annual Tulsa's Finest gala. I want to recognize this year's Eastern Oklahoma Chapter event chairs, Natalie & Kyle Dorsey, as well as honorary chairs, Hailey Woodard and Calvin Moniz. The work and dedication of these individuals has been instrumental to the success of this event, and we thank them for their leadership.

It's fitting that we are celebrating together. Despite the challenges and uncertainty over the past 18 months, we have much to be grateful for – from exciting advances in research and care to promising new technologies that have potential to benefit all people with cystic fibrosis. We are driven by a shared dream – a cure for every person with CF and a life free from the burden of this disease.

The CF community is at the heart of all we do and continues to help us achieve exciting progress. There are now more than a dozen approved treatments for CF and people are living longer than ever before – reaching important life milestones, such as going to college, getting married, and having families of their own.

There are still many who do not benefit from existing therapies or who continue to face challenging complications from CF. Our vision is a cure for every person with cystic fibrosis. Tonight, the funds we raise will help us get closer to reaching this goal. We will not leave anyone behind. Together, let's make CF stand for Cure Found.

With gratitude,

Michael Boyle, M.D.

President and Chief Executive Officer

OPPORTUNITY FOR NEW FUTURES

Evan, Age 6

The Cystic Fibrosis Foundation, a 501(c)(3) nonprofit organization, has unrestricted financial reserves of about 12 times its budgeted 2021 expenses. These reserves are a result of the Foundation's successful venture philanthropy model, through which we have raised and invested hundreds of millions of dollars to help discover and develop breakthrough CF therapies. With this model, we have received and may receive milestone-based payments, equity interests, royalties on the net sales of therapies, and/or other forms of consideration. These funds and any future revenue from our model are reinvested into the CF Foundation's mission to cure cystic fibrosis and to provide all people with CF the opportunity to lead long, fulfilling lives.
