ABOUT THE NKFM

Our mission is to prevent kidney disease and improve the quality of life for those living with it. With over 1 million people in Michigan living with kidney disease, and because 70% of kidney disease can be prevented, we must also focus on the root causes of kidney disease which are obesity, diabetes and hypertension to help people avoid this disease altogether. We're proud to have received a 4-Star rating from Charity Navigator, the nation's leading charity evaluator, for the 13th year in a row. The designation puts the NKFM in the top 1% of all charities!
