Lung Love Run/Walk Portland and Your Next Step is the Cure

SPONSORSHIP OPPORTUNITIES

We are stronger together!

This year, two of the leading lung cancer organizations are joining forces to create one of the largest run/walk events for lung cancer on the East to West Coast! Join Lung Cancer Alliance (LCA) and Bonnie J. Addario Lung Cancer Foundation (ALCF) at **Laurelhurst Park on Saturday, June 22, 2019**, as we unite two of the biggest events for lung cancer: Lung Love Run/Walk Portland and Your Next Step is the Cure.

Sponsorship with Returns

Sponsoring this joint event is an effective and meaningful way to elevate your brand while supporting the lung cancer community. We all have sisters, fathers and grandmothers that have been impacted by this terrible disease. Our community of runners and walkers are passionate about raising awareness and are welcoming to organizations that join them in the fight against lung cancer.

Why Lung Cancer?

Every day
422 Americans
die of lung cancer.¹

Of the men and women
with lung cancer,
17.9%
are never smokers.²

Lung cancer is one of the
least funded
cancers, but is the leading
cause of cancer death.³

Lung Cancer Alliance

Lung Cancer Alliance is one of the nation's leading non-profit health organizations that serves and listens to those living with and at risk for lung cancer to reduce stigma, improve quality of life and increase survival. We empower a vibrant and caring community by helping people navigate the paths of early detection, diagnosis, treatment and long-term survival. Insights into our community allow us to improve care, amplify awareness, drive advocacy and lead transformative research with the vision of tripling the number of survivors in the next decade.

Bonnie J. Addario Lung Cancer Foundation

The Bonnie J. Addario Lung Cancer Foundation (ALCF) is one of the largest philanthropies (patient-founded, patient-focused, and patient-driven) devoted exclusively to eradicating lung cancer through research, early detection, education, and treatment. The Foundation's goal is to work with a diverse group of physicians, organizations, industry partners, individuals, patients, survivors, and their families to identify solutions and make timely and meaningful change and turn lung cancer into a chronically managed disease by 2023.

1. National Cancer Institute, Surveillance, Epidemiology, and End Results (SEER), U.S. Cancer Mortality, 1975-2013, published April 15, 2016
2. Centers for Disease Control and Prevention, Morbidity and Mortality Weekly Report, "Cigarette Smoking Among Adults -- United States, 2006". November 9, 2007/56(44):1157-1161.
3. Funding: National Center for Health Statistics at the Centers for Disease Control and Prevention, "Estimates of Funding for Various Research, Condition, and Disease Categories (RCDC)," https://report.nih.gov/categorical_spending.aspx. Published July 3, 2017. Deaths: American Cancer Society. Cancer Facts & Figures 2018. Atlanta: American Cancer Society; 2018.

Our Reach

Together, Lung Cancer Alliance and Bonnie J. Addario Lung Cancer Foundation reach the broader lung cancer community through various channels:

- **Social Media:** Passionate and engaged communities reaching upwards of 30 million people
- **Weekly Community E-Newsletter:** 75,000 recipients
- **Website:** 40,000 unique monthly visitors
- **Public Relations:** Over 1,300,000,000 media impressions

Your Sponsorship Helps Save Lives

Join the fight against lung cancer as a sponsor of the Lung Love Run/Walk Portland and Your Next Step is the Cure in Portland. With your sponsorship, you are making a profound impact on the number one cancer killer of both men and women in every state across the US. Help us save lives, advance research and transform lung cancer into a chronically managed disease.

As a sponsor, your contribution is directly helping those impacted by lung cancer through LCA and ALCF efforts to:

-  **Advance scientific research**
-  **Provide patient programs and support**
-  **Raise awareness and engagement**
-  **Shape health policy**
-  **Facilitate early detection programs**
