TWO TABLES OF 10
TAX DEDUCTIBLE AMOUNT: $21,780
ATTENDING FOUNDATION EVENTS
To reduce the risk of getting and spreading germs at CF foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection.

Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation’s attendance policy recommends that all people with CF maintain a safe 6-foot distance from each other at all times while attending an outdoor Foundation-sponsored event.

ABOUT THE CYSTIC FIBROSIS FOUNDATION
Founded in 1955, the Cystic Fibrosis Foundation is the world’s leader in the search for a cure for cystic fibrosis. The Foundation was started by parents desperate to save their children’s lives. Their relentless and impassioned determination to prolong life has resulted in tremendous strides, and this year we celebrate 65 years of accelerating innovative research and drug development, as well as advancing care and advocacy. Virtually every approved cystic fibrosis drug therapy available now was made possible because of the Foundation and its supporters. Still, we believe no one should have to die at a young age. **We will not rest until we have a cure for all people living with CF.**

ABOUT CYSTIC FIBROSIS
Cystic fibrosis is a rare, genetic, life-shortening disease that affects every organ in the body and makes breathing difficult. Some people with the disease say it’s like breathing through a narrow straw. In people with CF, a defective gene causes a thick buildup of mucus in the lungs, pancreas, and other organs. In the lungs, the mucus clogs the airways and traps bacteria, leading to life-threatening lung infections. Sixty years ago, most children did not live long enough to attend elementary school, but thanks to Foundation-based research and care, the median survival age of people with CF is now into the 40s.

MISSION
The mission of the Cystic Fibrosis Foundation is to cure cystic fibrosis and to provide all people with the disease the opportunity to lead full, productive lives by funding research and drug development, promoting individualized treatment, and ensuring access to high-quality, specialized care.

A CURE FOR ALL
There are now four FDA-approved therapies that treat the underlying cause of CF and more than 25 potential new medications in the CF research pipelines.

Yet, we are not done. Not everyone can benefit from current therapies, so we are committed to exploring all science that has real potential to deliver a cure. We know that no pace is fast enough when you or your loved one are living with the challenges of CF. Advances in new gene-based technologies represent an unprecedented opportunity to end CF as we know it. This will take many years and sustained investment. That’s why community support remains vital.

Together, we can make CF stand for Cure Found.

* * * *

The Cystic Fibrosis Foundation has unrestricted financial reserves of about 10 times its 2019 budgeted expenses, following a one-time royalty sale in 2014. These funds, along with the public’s continuing support, are needed to help accelerate our efforts to pursue a lifelong cure for this fatal disease, fund development of new therapies and help all people with CF live full, productive lives. To obtain a copy of our latest annual report, visit https://www.cff.org/About-Us/Reports-and-Financials/, email info@cff.org or call 800 FIGHT-CF.
