ABOUT ICC

International China Concern (ICC) was founded in 1993 by David Gotts after he witnessed the suffering of Chinese children with disabilities who had been abandoned and left without hope in desperate conditions.

Initially, ICC sent short-term teams to China to provide care in government welfare centres. Later, we established permanent locations which provide around-the-clock care for children in family-style group homes for children in Changsha and Hengyang in Hunan Province.

Since its founding in 1993, ICC has partnered with the Chinese government to develop social welfare services for China's most vulnerable children. Our reputation and relationships in China place us in an excellent position to not only provide expert care and specialist services for the neediest children, but also empower and train Chinese nationals to save lives, support families, transform communities and change attitudes about disability.

WHAT IS WALK THE WALL?

David Gotts, founder of International China Concern (ICC), initiated Walk the Wall, an international fundraising walkathon, in 2007 with the aim to change the lives of abandoned children with disabilities. By walking the distance of the Great Wall or more, the collective love and

support from all participants can bring love, hope and opportunity to these precious lives.

Each year, ICC organises a series of Walk the Wall events that take place around the world. The walks can be up to 10 km long and participants sign up, get sponsors/donors to support them, and walk. Every walker is raising much-needed funds to care for children with disabilities in China.

Each Year:

- **Over 30 walkathons in more than 7 countries are organised worldwide**
- **Over 5,000 participants join together and support this movement to give life and end abandonment**
- **We walk with the goal of raising more than US\$500,000 so that more children with disabilities in ICC's care can receive holistic nurture and care and more families raising children with disabilities can receive family support services**

WHY WE WALK THE WALL?

Walk the Wall raises the necessary funds to help ICC give life to hundreds of children with disabilities by providing full-time residential and emergency care. These funds also help ICC to work to end abandonment by providing support to families raising children with disabilities, proving that there are ways to keep families together.

Testimonials

"A charitable wish in every will" is the charitable philosophy that our company embraces. There are many charities that are very dear to our heart, one of which is ICC. During the last couple of years, we've had the pleasure and precious opportunity to work with this charitable organization to raise awareness and funds for the disabled and abandoned children in China. We even went to visit their facilities and children in China twice to experience first hand what life is like for the kids and the staff. We are deeply moved by the incredible amount of love and care that the ICC staff and volunteers give to these precious children.

Despite the fact that they have been abandoned, the children are still full of joy because of the love and attention from ICC staff. They are truly a unique organization that demonstrates sacrificial love and grace. ICC not only helps abandoned and disabled children, but also helps to bring improvement to the social welfare system in China through community awareness, education and influence. If we have more organizations like them, the world would definitely be a much better place. If you are looking for a charity to give to that would result in tremendous impact, I strongly encourage you to consider ICC. You may receive more than you give. Like what Winston Churchill said, "We make a living by what we get, but we make a life by what we give."
